SAFETY INFORMATION

The following recommendations are made for the safe operation and adjustment of the Commode:

WARNINGS

Users with limited physical capabilities should be supervised or assisted when using the commode

Leg extensions with rubber tips MUST be in contact with the floor at all times.

The Bariatric Commode #410 has a weight capacity of 650 lbs.  
The Bariatric Commode #411 has a weight capacity of 400 lbs.  
The Bariatric Drop Arm Commode #413BAR has a weight capacity of 650 lbs.  
The Drop Arm Commode #413 has a weight capacity of 300 lbs.

INSTALLATION WARNINGS

Ensure that the snap buttons fully protrude through the same respective adjustment hole of each leg extension. This ensures that the leg extensions are securely locked into position and an even height adjustment is achieved.

Make certain ALL screws, nut and/or bolts are tight at all times.

Inspect rubber tips on the leg extensions for rips, tears, cracks or wear or if they are missing. Replace them immediately if any of these conditions exist.

Back tube wing nuts MUST be inspected regularly for proper tightness- otherwise injury or damage may occur

LEG HEIGHT ADJUSTMENT

1. Select desired height for commode by aligning snap button of each leg extension with appropriate adjustment hole in leg frame.

2. Ensure snap buttons are fully engaged into adjustment hole of each leg frame and are at the same height before using.
CAUTION
Before removing/installing seat and lid, allow seat/lid to reach room temperature if exposed to cold. This will help prevent the seat clamps from breaking when being removed/installled onto commode back frame rail.

INSTALLING/REMOVING THE COMMODE SEAT AND LID

1. Align the seat clamps of the commode seat onto the back frame rail. (Each clamp should sit outside the pail holders). Push down on seat until it clamps firmly into place.

2. Repeat the same process for the lid. (Not applicable for the Bariatric Drop Arm Commode 413BAR)

3. When removing the seat or lid, remove the lid first and then the seat. To remove, grasp the back corner of the lid and/or seat and lift up firmly. (Not applicable for the Bariatric Drop Arm Commode 413BAR)

WARNING
Commode seat MUST be DOWN before sitting on the commode. Pail holders are NOT constructed to support the weight of an individual, ONLY the pail and its contents.

OPERATING DROP ARM

Bariatric Drop Arm Commode #413BAR

1. To drop arm on commode press in the easy release lever located at the end of the drop arm.
2. To engage drop arm just pull the arm up until it clicks into position.
Drop Arm Commode #413

1.

CARE AND LUBRICATION

CARE

Use a damp cloth and soap to clean.

LUBRICATION

To make raising or lowering the seat/lid easier, you may lubricate the commode back frame rail with a very small amount of petroleum jelly.
LIMITED WARRANTY

PMI WARRANTS THIS PRODUCT TO BE FREE FROM DEFECTS IN MATERIALS AND WORKMANSHIP.

THIS WARRANTY IS EXTENDED ONLY TO ORIGINAL PURCHASER/USER OF OUR PRODUCTS.

PMI WARRANTS ITS PRODUCTS TO BE FREE FROM DEFECTS IN MATERIAL AND WORKMANSHIP FOR A PERIOD OF 2 YEARS OF USE BY ORIGINAL PURCHASER.
